1 SEGMENT TV AND DIGITAL PHOTO FRAME

User Guide

PLEASE READ AND FOLLOW THESE INSTRUCTIONS BEFORE YOU USING YOUR UNIT.

Table of Contents

Introduction and important guidlines

The digital photo frame lets you view digital picture directly from your camera's memory card. You will be able to create a slideshow using multiple transition effects or display one picture at a time. No computer ,digital camera or internet connection is required. Before starting the unit, please make sure using correct file formate. Our machine supports the following files:

MP3,

WMA (Audio),

Standard JPEG, BMP ,GIF(photo)

MPEG --1/2/4 decode,AVI (vedio)

The digital photo frame is compatible with the following popular memory card format:

Memory stick (MS),Multi-Media Card (MMC), and Secure Digital (SD).

It can also read files stored on a USB flash drive using the USB host part.

Note:

- The unit may not replay all images or video files download from the internet Make sure to use files which are supported by our machine.

- Some digital cameras save images into non-standard format. Please refer to your camera's instruction manual for specifies. Due to slightly differing standards and capacities there may be USB flash drives not work with our machine.

- High resolution pictures require longer loading time. It will be displayed in longer time than low resolution pictures
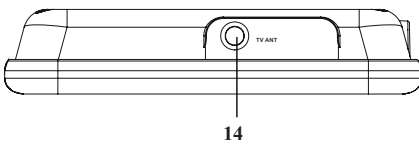

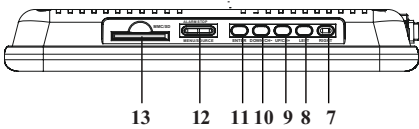

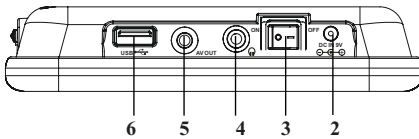

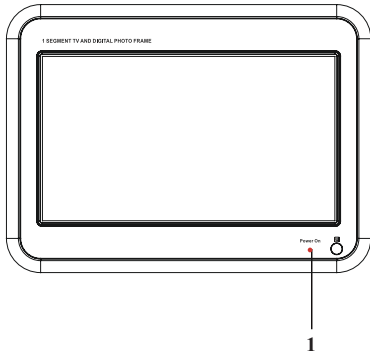

Maintenance and Precaution

- The 1 segment TV and Digital Picture Frame is for indoor use only.

- To reduce the risk of fire or electric shock; do not expose this appliance to rain or moisture.

- Do not block the ventilation holes on the back of the unit at any time.

- Keep your unit out of the sunlight.Direct sunlight may cause damage.

- Do not open the case of the unit.There is a risk of electric shock. and there are no user serviceable parts inside.

- Opening the case will void your warranty.

- Do not use the unit if conditions could allow condensation to occur,or damage may result.

- Your unit is a complicated electronic device and cannot withstand shock from drops.

Cleaning the LCD screen
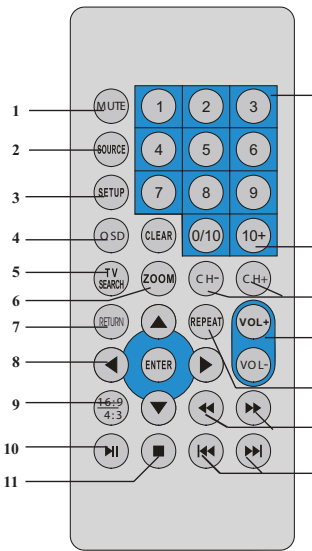

- Treat the screen gently.The screen on the unit is made of glass and can be scratched or broken.

- If fingerprints or dust make the LCD screen dirty,we recommend using a soft,non-abrasive cloth such as a camera lens cloth to clean the LCD screen.

- If you use an LCD Cleaning Kit sold on the market,apply the cleaning liquid to the cloth. Do not apply the liquid directly to your LCD screen.
